

TO OUR VALUED CUSTOMERS,

At Calloway's & Cornelius Nursery, the health and well-being of our customers and staff is a top priority. We are committed to providing a safe experience at our garden centers and will continue to monitor the latest reports from the CDC.

We have instructed our team to follow the CDC's guidelines for personal health while encouraging employees to stay home if they are unwell. Our garden centers will see an increased daily cleaning protocol to ensure that check-out areas, carts, work surfaces, and bathrooms are sanitized frequently.

To ensure the safety of all and in compliance with CDC guidelines, we will be suspending Saturday Garden Series classes at all locations for the remainder of March. You will be able to find advice needed for your next gardening project on our website, social media, or by visiting your local store to speak with any of our Texas Certified Nursery Experts.

We believe gardening to be a creative process that adds value to a home, benefits the environment, and is a pleasant diversion in its own right. To assist in your gardening journey, Calloway's & Cornelius offers a rich, exciting shopping experience highlighted by variety, value, quality and a regular influx of unexpected offerings. We search for and provide well-adapted varieties, fully informing our customers about the special needs of more exotic plants. All the selection and expertise in the world is moot if there's no respect for the customers who seek it, so we at Calloway's & Cornelius place a premium on our customer service, guaranteeing your satisfaction. We believe that surrounding yourself with nature's beauty does so much for our well-being. Plants are good for us physically but also provide a spiritual respite from the stress, noise and hectic pace of life.

We will continue to take measures to keep our stores safe, while inspiring garden creativity. During these uncertain times, we hope you can find time to enjoy the garden. From our family to yours, we wish you and your loved one's good health.

Marce Ward, President & C.E.O.
